

## Department of Computer Science and Engineering

Action Taken Based on stakeholders feedback for enrichment of curriculum.

Course	BTech (CSE)
Subjects	Machine learning, Artificial Intelligence, Android development courses, Data science, Agile Software Development, Digital Marketing, Web and Mobile Application Development, AngularJS Development, Python Programming, Deep & Reinforcement Learning, R Programming, Emotional Intelligence
Recommendations	<p>Curriculum of the university should be based on the recent trends in current technologies. In this regard Machine learning, Artificial Intelligence, Android development courses , Data science, Agile Software Development , Digital Marketing , Web and Mobile Application Development, Angular JS Development can be introduced in the curriculum in order to increase the job opportunities for the students.</p> <p>Related to current trending technologies like R programming, Python Programming, Deep &amp; Reinforcement Learning, cyber security, payment gateway applications courses should be added for development of projects and technical live project development work.</p> <p>Along with the technical knowledge few soft skill development portions should be added to manage Emotional Intelligence.</p>
Actions	The departmental recommendations based on the feedback from various stakeholders are compiled and sent to the university for their consideration in the forthcoming syllabus revision.

## Department of Mechanical Engineering

Action Taken Based on stakeholders feedback for enrichment of curriculum.

Course	BTech (ME)
Subjects	CAD/CA M Manufacturing Process Metrology and Machine tools Unconventional Machining Process Production Technology
Recommendations	<p>Curriculum of the university should be based on the recent trends in current technologies. In this regard Node JS , Reactjs, Django, Android Application development can be introduced in the curriculum in order to increase the job opportunities for the students.</p> <p>Related to Information security and project work, courses on android application may be introduced.</p> <p>Related to Manufacturing Process, Metrology and machine tools , Unconventional machining process and Production technology subject should be added with practical aspects to inculcate practical learning for the students.</p>
Actions	The departmental recommendations based on the feedback from various stakeholders are compiled and sent to the industry for their consideration in the forthcoming syllabus

	revision.
--	-----------

## Department of Civil Engineering

Action Taken Based on stakeholders feedback for enrichment of curriculum.

Course	BTech (CE)
Subjects	Civil Engineering Drawing Material and Finance Management
Recommendations	<p>1. Curriculum of the university should be based on the recent trends in current technologies. In this regard Node JS , Reactjs, Django, Android Application development can be introduced in the curriculum in order to increase the job opportunities for the students.</p> <p>Related to Information security and project work, courses on android application may be introduced.</p> <p>Related to Manufacturing Process, Metrology and machine tools , Unconventional machining process and Production technology subject should be added with practical aspects to inculcate practical learning for the students.</p> <p>Quantity surveying and estimation</p>
Actions	The departmental recommendations based on the feedback from various stakeholders are compiled and sent to the industry for their consideration in the forthcoming syllabus revision.
